

CIBC Market Return GICs Information Statement

Available until March 31, 2014

OVERVIEW OF THE CIBC MARKET RETURN GICs

The CIBC Market Return GICs (the "GICs") are issued by Canadian Imperial Bank of Commerce. The GICs entitle you to payment at maturity of an amount in Canadian dollars consisting of your Principal Amount, in addition to a potential interest payment (the "Variable Interest") linked to the performance of an underlying index (the "Index"). The list of available GICs and key information is summarized below:

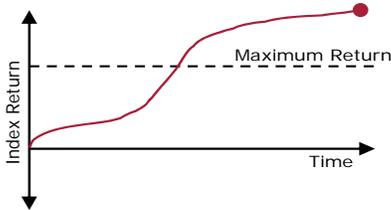

Current GICs	Index	Term	Maximum Return	Issue Date	Maturity Date
CIBC Canadian Market Return	S&P/TSX 60 Index	5 Years	25%	Apr 3, 2014	Apr 3, 2019
CIBC Canadian Financials Market Return	S&P/TSX Capped Financials Index	5 Years	30%	Apr 3, 2014	Apr 3, 2019

Interest Calculation	Variable Interest, if any, will be paid at maturity and will be equal to your Principal Amount multiplied by the Index Return. The Index Return will measure the percentage increase or decrease in the Closing Level of the Index, measured from its Start Level to its End Level. Each of the GICs will be subject to a specified Maximum Return. If no Variable Interest is paid, you will only receive your Principal Amount at maturity.
Early Redemptions	The GICs (including any short term investments into which funds received by CIBC for investment in the GICs are invested prior to the Issue Date) cannot be redeemed or retracted prior to the Maturity Date except in the event of your death or personal hardship, as determined by CIBC in its sole discretion, or as otherwise provided by law.
Transfers	The GICs are generally not transferable prior to maturity. If purchasing the GICs through a dealer, please consult your advisor regarding your ability to transfer the GICs.
Minimum Investment	\$500 for each of the GICs.
Fees	No fees or expenses will be charged during the term of the GICs that will impact the potential Variable Interest payable at maturity.
CDIC Eligibility	The GICs are eligible for CDIC coverage, subject to CDIC rules and regulations.

HYPOTHETICAL EXAMPLES

The following examples demonstrate how Variable Interest will be calculated and are included for illustration purposes only. The Closing Levels used to illustrate the calculation of Variable Interest are hypothetical and are not estimates or forecasts of future Closing Levels or the amount of any Variable Interest that may be payable. The actual performance of the Index will be different from these examples and the difference may be material. A 5-year GIC with a Maximum Return of 25.00% is being used for example purposes.

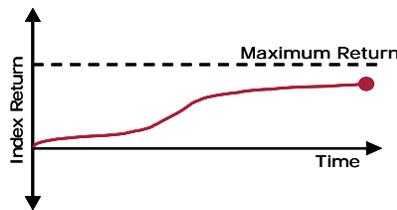

Positive Performance of the Index that is greater than the Maximum Return

Start Level:	100.00
End Level:	130.00
Actual % Return:	30.00%
Index Return:	25.00%

In this hypothetical example, you would receive Variable Interest at maturity equal to 25.00% of your Principal Amount, even though the Closing Level of the Index increased by 30.00% over the term. You would also receive your Principal Amount at maturity.

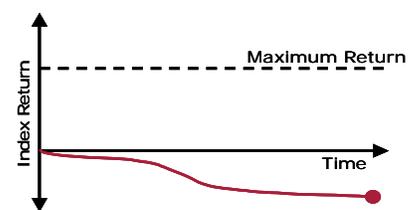

Positive Performance of the Index that is less than the Maximum Return

Start Level:	100.00
End Level:	115.00
Actual % Return:	15.00%
Index Return:	15.00%

In this hypothetical example, you would receive Variable Interest at maturity equal to 15.00% of your Principal Amount. You would also receive your Principal Amount at maturity.

Negative Performance of the Index

Start Level:	100.00
End Level:	90.00
Actual % Return:	-10.00%
Index Return:	0.00%

In this hypothetical example, you would receive no Variable Interest at maturity. You would however, receive your Principal Amount at maturity, even though the Closing Level of the Index decreased by 10.00% over the term.

CIBC Market Return GICs Information Statement

Available until March 31, 2014

OVERVIEW OF THE INDICES

All information in this Information Statement relating to each of the Indices is derived from publicly available sources and is presented in summary form. Historical performance of the Indices will not predict future performance of the Indices or the Variable Interest that may be payable on the GICs. The following charts show the performance of each of the Indices based on the month-end Closing Levels from January 2004 through January 2014. Source: Bloomberg.

S&P/TSX 60 Index

Closing Levels	
Starting	476.64
Highest	878.42
Lowest	455.87
Ending	785.53

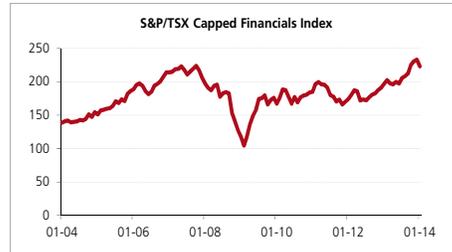

The S&P/TSX 60 is a capitalization-weighted index. The S&P/TSX 60 Index consist of 60 of the largest and most liquid Canadian companies listed on the Toronto Stock Exchange. They are usually domestic or multinational industry leaders.

S&P/TSX Capped Financials Index

Closing Levels	
Starting	138.79
Highest	233.18
Lowest	104.45
Ending	223.27

The S&P/TSX Capped Financials Index offers exposure to securities of Canadian financial sector issuers listed on the Toronto Stock Exchange, selected by Standard & Poor's using its industrial classifications and guidelines for evaluating issuer capitalization, liquidity and fundamentals.

HOW ARE THE RETURNS ON THE GICS CALCULATED?

Variable Interest, if any, payable on the Maturity Date will be an amount determined as follows:

$$\text{Variable Interest} = \text{Principal Amount} \times \text{Index Return}$$

Defined Terms:

Banking Day means a day (other than a Saturday or a Sunday) on which commercial banks are open for business (including for foreign exchange transactions in U.S. dollars) in Toronto, Ontario.

Calculation Agent means CIBC World Markets Inc.

Closing Level means in respect of the Index, the official closing level as announced by the Price Source, provided that, if on or after the Issue Date such Price Source materially changes the time of day at which the official closing level is determined or no longer announces such official closing level, CIBC may thereafter deem the Closing Level to be the level of the Index as of the time of day used by such Price Source to determine the official closing level prior to such change or failure to announce.

End Level means the Closing Level for the Index on the Valuation Date.

Exchange means any exchange or trading system from which prices of securities are used from time to time in the computation of the Closing Level of the Index.

Exchange Day means any day on which the Exchange and the Related Exchange are scheduled to be open for trading during their respective regular trading sessions.

Index Return means the number, which may be positive or negative, expressed as a percentage, determined as follows:

$$\frac{\text{End Level} - \text{Start Level}}{\text{Start Level}}$$

provided that if such number is (i) less than or equal to zero, the Index Return will be equal to zero; or (ii) greater than or equal to the Maximum Return, the Index Return will be equal to the Maximum Return.

Issue Date means the date on which the GICs are issued, as specified on page 1 of this Information Statement.

Maturity Date means the date on which the GICs mature, as specified on page 1 of this Information Statement.

Maximum Return means the maximum return for each of the GICs specified on page 1 of this Information Statement.

Price Source means, in respect of the Index, the entity that calculates and publishes the Closing Level for the Index on the Issue Date, or any Successor Source.

Principal Amount means the amount you have deposited with CIBC; note that the minimum investment amount specified on page 1 of this Information Statement applies.

Related Exchange means, in respect of the Index, any exchange or trading system on which futures or options contracts on the Index, or securities underlying the Index, are listed from time to time.

Start Level means the Closing Level for the Index on the Issue Date, provided that if the Issue Date is not an Exchange Day, the Start Level will be determined on the immediately following Exchange Day, subject to the provisions set out under "Special Circumstances".

Successor Source means, in respect of the Index, any entity that succeeds the Price Source in respect of the Index and continues calculation and publication of the Closing Level for such Index, provided that such successor is acceptable to CIBC.

Valuation Date means the third Banking Day immediately preceding the Maturity Date, provided that, if such day is not an Exchange Day, the applicable Valuation Date for the Index will be the next succeeding Exchange Day.

WHAT ARE SOME OF THE RISKS OF INVESTING IN THE GICs?

No Variable Interest may be Payable

No Variable Interest will be payable at maturity if the End Level is equal to or less than the Start Level. Variable Interest is linked to the performance of the Index. The performance of the Index is unpredictable and will be influenced by factors that are beyond the control of CIBC.

Variable Interest may be limited by the Maximum Return

The Maximum Return specified for the GICs may limit your return at maturity. If the performance of the Index exceeds the Maximum Return, as measured by the percentage change in the Closing Level of the Index between the Start Level and the End Level, you will only be entitled to receive Variable Interest equal to the Maximum Return multiplied by your Principal Amount.

Suitability of the GICs for Investment

CIBC makes no recommendation as to whether the GICs are a suitable investment for you. You should reach a decision to invest in the GICs after carefully considering with your advisor, the suitability of the GICs in light of your investment objectives and the information set out in this Information Statement. An investment in the GICs is suitable for you only if (i) are prepared to assume risks with respect to a return linked to the performance of the Index; (ii) are prepared to hold the GICs to maturity; (iii) do not require a guaranteed return; and (iv) understand the terms of the GICs and the risks involved in holding the GICs.

Non-Conventional Debt Instrument

The GICs have certain investment characteristics that differ from conventional debt instruments. The GICs do not provide you with a return or income stream prior to maturity, nor do they provide a return at maturity that is calculated or determined by reference to a fixed or floating rate of interest. Your return is reflected in the potential Variable Interest payment, which will depend on the performance of the Index and which cannot be determined prior to the Valuation Date.

Not Equivalent to a Direct Investment

The return on the GICs is not the same as a direct investment in the Index or the securities underlying the Index. The GICs measure the price return, as opposed to the total return, of the Index, meaning that your return is based on the percentage increase (or decrease) in the Closing Level of the Index, and does not include any distributions or dividends declared on the Index or the securities underlying the Index. However, unlike a direct investment in the Index where you could lose all or a portion of your original investment, your Principal Amount will be repaid to you on the Maturity Date, regardless of the performance of the Index.

No Ownership of, or Recourse to, the Index

You will not have, and the GICs will not represent, any direct or indirect ownership interest in the Index or any right to acquire the securities underlying the Index. As such, you will not have recourse to the Index to satisfy the amount owing under the GICs. You will only have recourse to CIBC, as the issuer of the GICs, to satisfy such amount.

Independent Investigation Required

CIBC assumes no responsibility for the adequacy of the information concerning the Index contained in this Information Statement or publicly available. You should undertake an independent investigation of the Index as you consider necessary in order to make an informed decision as to the merits of an investment in the GICs.

Historical Performance does not Predict Future Performance of the Index

Historical performance of the Index will not predict future performance of the Index. It is not possible to predict whether the Closing Level of the Index will increase or decrease.

Risks Relating to the Index

The Closing Level of the Index will be influenced by numerous factors. Changes in economic conditions, including, for example, interest rates, inflation rates, exchange rates, industry conditions, supply and demand, competition, technological developments, political and diplomatic events and trends, war, tax laws and innumerable other factors, can adversely affect the Index. None of these conditions are within the control of CIBC.

Credit Risk

The obligation to make payments under the GICs is an obligation of CIBC and thus the likelihood that you will receive the payment owing to you under the GICs will depend upon the financial health and creditworthiness of CIBC. The GICs are eligible for Canada Deposit Insurance Corporation (CDIC) coverage, subject to CDIC rules and regulations. Visit www.cdic.ca or call 1.800.461.CDIC (2342) for details.

CIBC Market Return GICs Information Statement

Available until March 31, 2014

No Secondary Market

The GICs will not be listed on any stock exchange and no secondary market will be provided. You must be prepared to hold the GICs to maturity.

Early Redemptions

The GICs (which for the purposes of this section includes any short-term investments into which funds received by CIBC for investment in the GICs are invested prior to the Issue Date) cannot be redeemed or retracted prior to the Maturity Date except in the following circumstances: (i) in the event of your death for non-registered plans holding the GICs; (ii) in the event of your death for a registered plan holding GICs if you are the annuitant of the RRSP or RRIF, the beneficiary of the RDSP, the subscriber or last of the subscribers in the case of joint subscribers of the RESP or the holder of the TFSA, as the case may be; (iii) if you are suffering from personal hardship, as determined by CIBC in its sole discretion, for non-registered plans; (iv) if you are suffering from personal hardship, as determined by CIBC in its sole discretion, for a registered plan holding the GICs, if you are the annuitant of the RRSP or RRIF, the beneficiary of the RDSP, the subscriber of the RESP or the holder of the TFSA, as the case may be; and (v) if otherwise required by applicable law. On redemption prior to maturity, your Principal Amount will be repaid, but no interest will be paid.

Transfers

The GICs are generally not transferable prior to maturity. You should consult your advisor regarding your ability to transfer the GICs.

Potential Conflicts of Interest for CIBC

CIBC and its affiliates perform a number of roles in relation to the GICs, which could result in decisions being made or actions being taken by CIBC or its affiliates which could be adverse to your interests, including: (i) CIBC is the issuer of the GICs and has an obligation to pay your Principal Amount and any Variable Interest on the Maturity Date; (ii) CIBC World Markets Inc. is the Calculation Agent for the GICs and will be solely responsible for calculating Variable Interest (including all components thereof), determining whether a Special Circumstance has occurred, and determining whether certain actions which could have a material impact on you should be taken (see "Special Circumstances" described below). The Calculation Agent is required to act in good faith and in a commercially reasonable manner. No independent calculation agent will be retained to confirm or audit these calculations and determinations. The Calculation Agent's calculations and determinations will, absent manifest error, be final and binding; (iii) CIBC or its affiliates may, at present or in the future, publish research reports with respect to the Index which may affect its market value and may express opinions or provide recommendations that are inconsistent with purchasing or holding the Index or the GICs; (iv) CIBC or its affiliates may from time to time buy or sell the securities underlying the Index for business reasons or in connection with hedging their obligations under the GICs, or, issue or underwrite other financial instruments with returns linked to the trading prices of the securities underlying the Index. These trading and underwriting activities could affect the Index in a manner that is adverse to your interests in the GICs; (v) CIBC or its affiliates may, where permitted, accept deposits from, make loans or otherwise extend credit to, and generally engage in any kind of commercial or investment banking or other business with issuers, the securities of which are represented by the Index and may act with respect to such business in the same manner as it would if the GICs did not exist, regardless of whether any such action might have an adverse effect on the return payable in respect of the GICs; and (vi) Dealers and other firms will sell the GICs. These dealers and other firms will include CIBC's related entities such as CIBC Imperial Service (the CIBC Imperial Investor Service division of CIBC Investor Services Inc.) and the CIBC Wood Gundy division of CIBC World Markets Inc. CIBC World Markets Inc. and CIBC Investor Services Inc. are wholly-owned subsidiaries of CIBC, and CIBC is a related issuer of CIBC World Markets Inc. and CIBC Investor Services Inc.

WHAT ARE SOME OF THE RISKS OF INVESTING IN SPECIFIC GICs?

CIBC Canadian Financials Market Return GICs

Concentration Risk: The S&P/TSX Capped Financials Index consists of securities of Canadian financial sector issuers listed on the Toronto Stock Exchange. As a result, these GICs offer less diversification and increased concentration risk as compared to GICs that are linked to an index representing a broader range of equity securities from various sectors or asset classes.

CIBC Market Return GICs Information Statement

Available until March 31, 2014

ADDITIONAL INFORMATION YOU SHOULD KNOW ABOUT THE GICs

Principal Amount Repayment

On the Maturity Date, your Principal Amount will be repaid, regardless of the performance of the Index, provided that the GICs have not been redeemed prior to the Maturity Date in the limited situations described under "Early Redemptions".

Fees and Expenses

No fees or expenses will be charged during the term of the GICs that will impact the potential Variable Interest payable at maturity.

Information about the GICs

You may obtain a copy of this Information Statement and certain ongoing information regarding the GICs at www.cibcnotes.com, including: (i) the current Closing Level of the Index; and (ii) the formula for determining Variable Interest of the GICs. You may also contact your advisor to request this information.

CDIC Insurance

Canadian Imperial Bank of Commerce is a member of CDIC. The GICs are eligible for CDIC coverage, subject to CDIC rules and regulations. Visit www.cdic.ca or call 1.800.461.CDIC (2342) for details.

Status

The GICs will constitute direct, unsubordinated and unsecured obligations of CIBC ranking *pari passu* among themselves with all other direct, unsubordinated and unsecured indebtedness of CIBC from time to time outstanding.

Rating

The GICs have not been and will not be specifically rated by any rating agency. However, the deposit liabilities of CIBC with a term to maturity of one year or more (which would include CIBC's obligations under the GICs) are rated AA (stable outlook) by DBRS, Aa3 (stable outlook) by Moody's Rating Service, AA-(stable outlook) by Fitch Ratings and A+ (stable outlook) by Standard & Poor's as of February 24, 2014. A rating is not a recommendation to buy, sell or hold investments, and may be subject to revision or withdrawal at any time by the relevant rating agency.

Amendments

The terms of the GICs may be amended without notice to you if, in the reasonable opinion of the Calculation Agent, the amendment would not have an impact on any Variable Interest that may be payable. In all other cases, CIBC will provide notice to you of the amendment prior to making the amendment or without delay after the amendment is made.

Notification

CIBC will provide notice to you of certain events relating to the GICs as required by applicable regulations. All such notices will be mailed or otherwise delivered directly by CIBC to you.

Income Tax Considerations

The full amount of Variable Interest generally will be included in your income in the taxation year that includes the Valuation Date, except to the extent that some part or all of Variable Interest has already been included in your income for that or a preceding taxation year. Where payment of an alternate return in lieu of Variable Interest takes place prior to the Maturity Date as a result of a Special Circumstance (as described below), the full amount of such payment will be included in your income in the taxation year in which such payment becomes calculable. Based on an understanding of the CRA's administrative practice, there should be no deemed accrual of interest on the GICs prior to the taxation year that includes the Valuation Date, or the taxation year that includes the date on which an alternate return becomes calculable. This summary is not intended to constitute, nor should it be relied upon as, tax advice. You should consider the income tax consequences of an investment in the GICs with your tax advisor before investing in the GICs. Any interest paid to non-residents of Canada may be subject to Canadian non-resident withholding taxes. If you are a non-resident of Canada, you should consult your tax advisor regarding the tax consequences of an investment in the GICs.

CIBC Market Return GICs Information Statement

Available until March 31, 2014

Special Circumstances

The determination by the Calculation Agent that one or more unusual events beyond the control of CIBC (each a "Special Circumstance") has occurred may result in changes to the GICs, the calculation of Variable Interest, or the date on which any Variable Interest or your Principal Amount is paid. Such events could include, but are not limited to, the following: (i) the occurrence of an event that has a material adverse effect on CIBC's ability to place, maintain or modify hedges of positions in respect of the Index; (ii) any failure of trading to commence, or the permanent discontinuation of trading, or any suspension of or limitation imposed on trading of securities that comprise 20% or more of the level of the Index, by the Exchange or Related Exchange or otherwise; (iii) the failure of a Price Source for the Index to announce or publish the Closing Level for the Index (or the information necessary for determining the Closing Level), or the temporary or permanent discontinuance or unavailability of a Price Source; or (iv) the determination by CIBC that it has ceased to have any necessary licensing rights to utilize the Index in connection with the GICs. The Calculation Agent may adjust any component or variable relevant to the determination of Variable Interest to account for those circumstances, including replacing the Index with another underlying Index, as chosen by the Calculation Agent in its sole discretion. If the Calculation Agent determines that it is unable to make such adjustments, it may decide to accelerate or delay the payment of Variable Interest in which case an alternate return may be calculated and paid to you in lieu of paying Variable Interest on the Maturity Date. The alternate return may be zero. However, in no event will your Principal Amount be repaid prior to the Maturity Date as a result of the occurrence of a Special Circumstance.

Certificate

A certificate representing your investment in the GICs will not be available. Upon receipt of your subscription proceeds, CIBC will provide, or cause to be provided, a confirmation of receipt and a copy of this Information Statement by prepaid mail or other means of delivery.

Regulatory

The GICs are governed by federal regulations for "Principal Protected Notes".

Governing Law

The GICs, and the terms thereof, will be governed by and construed in accordance with the laws applicable in the Province of Ontario.

Subscriptions (not applicable to GICs purchased through a Dealer).

For GICs purchased through a Dealer, please refer to "Subscriptions for GICs purchased through a Dealer".

Subscriptions for GICs will be received subject to rejection or allotment in whole or in part. CIBC reserves the right to close the subscription books at any time without notice. Funds received by CIBC prior to the Issue Date will be dealt with as follows:

- (i) deposited in a cash account for the GICs upon receipt of the funds for investment;
- (ii) automatically transferred from the cash account and invested in a short-term investment on the day that funds are received for investment. You will earn simple interest at a rate of 0.25% per annum during the period from and including the day on which funds are invested in the short-term investment to but excluding the Issue Date. Interest earned for such investment period will be calculated and paid in cash on the Issue Date into the cash account from which your investment funds were obtained; and
- (iii) Subscription funds received by CIBC will be automatically invested in the GICs on the Issue Date.

Investors resident in Canada will be required to include the full amount of the interest in (ii) above in income for the taxation year that includes the Issue Date for purposes of the Income Tax Act (Canada). If you deposited funds with CIBC and CIBC determines, in its sole discretion, not to proceed with an offering of the GICs, all funds deposited will be returned to you, in addition to any interest that would have been earned up to but excluding the day on which you were notified of CIBC's decision not to proceed with the GICs.

Settlement (not applicable to GICs purchased through a Dealer).

For GICs purchased through a Dealer, please refer to "Settlement of GICs purchased through a Dealer".

Unless you designate another available maturity option, maturity proceeds of the GICs will be paid into the cash account for the GICs from which your original investment funds were obtained. Such cash account will pay interest at the prevailing interest rate (which may be zero) in accordance with the terms and conditions applicable to such cash account at that time.

CIBC Market Return GICs Information Statement

Available until March 31, 2014

ADDITIONAL INFORMATION YOU SHOULD KNOW IF PURCHASING THE GICs THROUGH A DEALER

GICs sold through a Dealer

GICs may be purchased through registered investment dealers or mutual fund dealers in Canada (each a "Dealer") that purchase and sell GICs using the FundSERV network. Funds used to purchase GICs using the FundSERV network may be consolidated or commingled for net settlement purposes.

Nature of Holding GICs Purchased through a Dealer

If you are a trustee (or the GICs are held in a registered plan for you), the Dealer holds the GICs for you (or the registered plan trustee, if applicable) as nominee/agent. If you are not a trustee (or where the GICs are not being held in a registered plan for you), the Dealer holds the GICs for you as nominee/trustee. This section does not apply if the GICs are held directly in your own name.

Agreement to Purchase GICs and Deemed Receipt of this Information Statement

The agreement to purchase GICs using the FundSERV network will be entered into (i) if the order to purchase is received via telephone, on the day on which the order to purchase is received, and (ii) if the order to purchase is received in person, on the later of the second day following (a) the day of deemed receipt of this Information Statement and (b) the day on which the order to purchase is received. You will be deemed to have received the Information Statement (i) five business days after the postmark date, if provided by mail, and (ii) when it is received, in any other case.

Subscriptions for GICs Purchased through a Dealer

Subscriptions for GICs purchased using the FundSERV network will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. You will receive credit from CIBC for simple interest accruing on funds deposited with CIBC prior to the Issue Date at a rate of 0.25% per annum. For funds deposited on or prior to the Thursday of a given week, the investment period will commence and interest will accrue from and including the first Banking Day of such week up to but excluding the Issue Date. For funds deposited after the Thursday of a given week, the investment period will commence and interest will accrue from and including the first Banking Day of the next following week up to but excluding the Issue Date. Interest will be calculated and paid for such investment period in cash on the Issue Date. Investors resident in Canada will be required to include the full amount of such interest in income for the taxation year that includes the Issue Date for purposes of the Income Tax Act (Canada). Notwithstanding the above, if you purchased the GICs by telephone and request the cancellation of the GICs as provided for below, all funds deposited with CIBC will be returned to your Dealer and no interest will be paid. If you deposited funds with CIBC and CIBC determines, in its sole discretion, not to proceed with an offering of the GICs, all funds deposited will be returned to your dealer, in addition to any interest that would have been earned up to but excluding the day on which you were notified of CIBC's decision not to proceed with the GICs.

Cancellation of GICs Purchased by Telephone through a Dealer

You may cancel an order to purchase the GICs made by telephone (or cancel the purchase of the GICs made by telephone if the GICs have already been issued) by providing instructions to CIBC through your Dealer any time up to 48 hours after the later of (i) the day on which the agreement to purchase the GICs is entered into and (ii) deemed receipt of this Information Statement. Upon cancellation, you are entitled to a refund of your Principal Amount and any fees relating to the purchase that have been paid by the Investor.

Settlement of GICs Purchased through a Dealer

For GICs purchased using the FundSERV network and held in accounts in your Dealer's name, CIBC will pay your Dealer the amount owing to you at maturity. The payment of such amount from your Dealer to you will be the responsibility of your Dealer and governed by standing instructions and customary practices.

Transfers of GICs Purchased through a Dealer

The GICs may be transferable to another Dealer if you decide to move your investment account to such other Dealer. You should consult your advisor as to your ability to transfer the GICs.

CDIC Insurance

The GICs are eligible for CDIC coverage, subject to CDIC rules and regulations. If you bought the GICs through a Dealer, your CDIC coverage may depend on you or your Dealer providing certain information to CIBC. Where you are a trustee for one or more beneficiaries, it may be necessary for you to provide your Dealer with name and address information and beneficial interest information about such beneficiaries in order to maximize CDIC coverage. You must satisfy yourself that your CDIC coverage requirements for the GICs are met and CIBC makes no representation in this regard. Visit www.cdic.ca or call 1.800.461.CDIC (2342) for details.
